

This new edition (completely reset) of Planned Chaos features a new introduction by Chris Westley of Jacksonville State University. The introduction brings this classic up to date - not that it has ever fallen out of date or ever will. The title comes from Mises's description of the reality of central planning and socialism, whether of the national variety (Nazism) or the international variety (communism). Rather than create an orderly society, the attempt to central plan has precisely the opposite effect. By short-circuiting the price mechanism and forcing people into economic lives contrary to their own choosing, central planning destroys the capital base and creates economic randomness that eventually ends in killing prosperity. This important work was written decades after Mises's original essay on economic calculation and includes the broadest and boldest attack on all forms of state control.

Mushrooms: A comprehensive guide to mushroom identification, Modern Architecture in Israel, The Screenwriting Formula: Why It Works and How To Use It, Innovation Zeitgeist Bibliography, Sheet 3, Sweden South East/Stockholm/Uppsala/Norrkoping (Road Maps), Very Much Alive: True Destiny, Book 1,
