

\*\* The first book in the fast paced, action packed Relic Hunters trilogy \*\*With her career in chaos and the wounds from her first and last relationship still raw, curvy archaeologist, Saira Rolton won't be getting involved with men again. Robbed of the recognition for her award winning discovery by a man who told her he loved her, she never wants to hear those words again. Hiding herself in the museum lab and working nights is one way to ensure that she won't be meeting any more men who think it's alright to lead a curvy, geeky girl on. Dangerously handsome, quick-witted and roguishly charming Bryce Armstrong is a thief. No ordinary thief – a high end antiquities thief who specializes in stealing treasures from the most prestigious museums to add to his hoard. But tonight, his objective is treasure of a different kind, a cursed coin with untold power, entrusted to his dragon shifter ancestor's centuries ago but lost to time. Until now. When an evil shadow organization swoops in to rob Bryce of his prize, the bullets start flying and he has no choice but to grab Saira and run. Like any good dragon shifter, Bryce is sworn to protect the innocent, even if they seem determined to see him behind bars for his crimes. Soon she will learn what makes this attractive dare devil of a burglar so hot – and it's not what she's expecting.
